

# COVID - 19 Community Support Programs

Base Titanium continues to support the Kwale County Government in managing its response to COVID -19 by donating PPE for frontline workers and providing training of County health workers.

## Personal Protective Equipment Donation

Base has donated over 25,000 pieces of PPE to support the efforts of frontline health and security workers in Kwale and Likoni.

At the national level, Base provided the State Department of Mining with masks, hand sanitiser and infrared thermometers to help support the continuity of service provision.

## Healthcare Workers' Training

Training of Community Health Volunteers has ensured they are equipped with the knowledge to sensitise local residents on how to protect themselves from COVID -19 residents from 50 villages and over 300,000 Likoni ferry passengers reached.

Working with Kwale County Government, 75 County health employees were trained on identifying COVID -19 symptoms, the safe treatment of patients and how to implement measures to prevent infection when treating a patient.
